

GRADES 9-12 SIMULATION: 12,245 STUDENTS

OBJECTIVE: Each block represents 100 students. Enroll each student at a school. All 123 blocks must be on the board at the end of the simulation. Keep the Portrait of a Graduate in mind when placing students in schools.

NOTE: Capacity accounts for facility classrooms only. Modular classroom space not included.

ADAPTABILITY

Our students will be agile in thoughts and actions, responding to positive and negative feedback while balancing diverse views to reach workable solutions.

COMMUNICATION

Our students will effectively express thoughts and ideas using oral, written, and nonverbal skills while being active listeners able to decipher meaning and intention.

CRITICAL THINKING

Our students will analyze and apply evidence-based reasoning to understand "big picture" challenges and how solutions affect other parts of a system.

TECHNOLOGY

Our students will leverage traditional and emerging technology to consume, create, communicate, and connect while practicing responsible citizenship in an increasingly digital world.

CREATIVITY

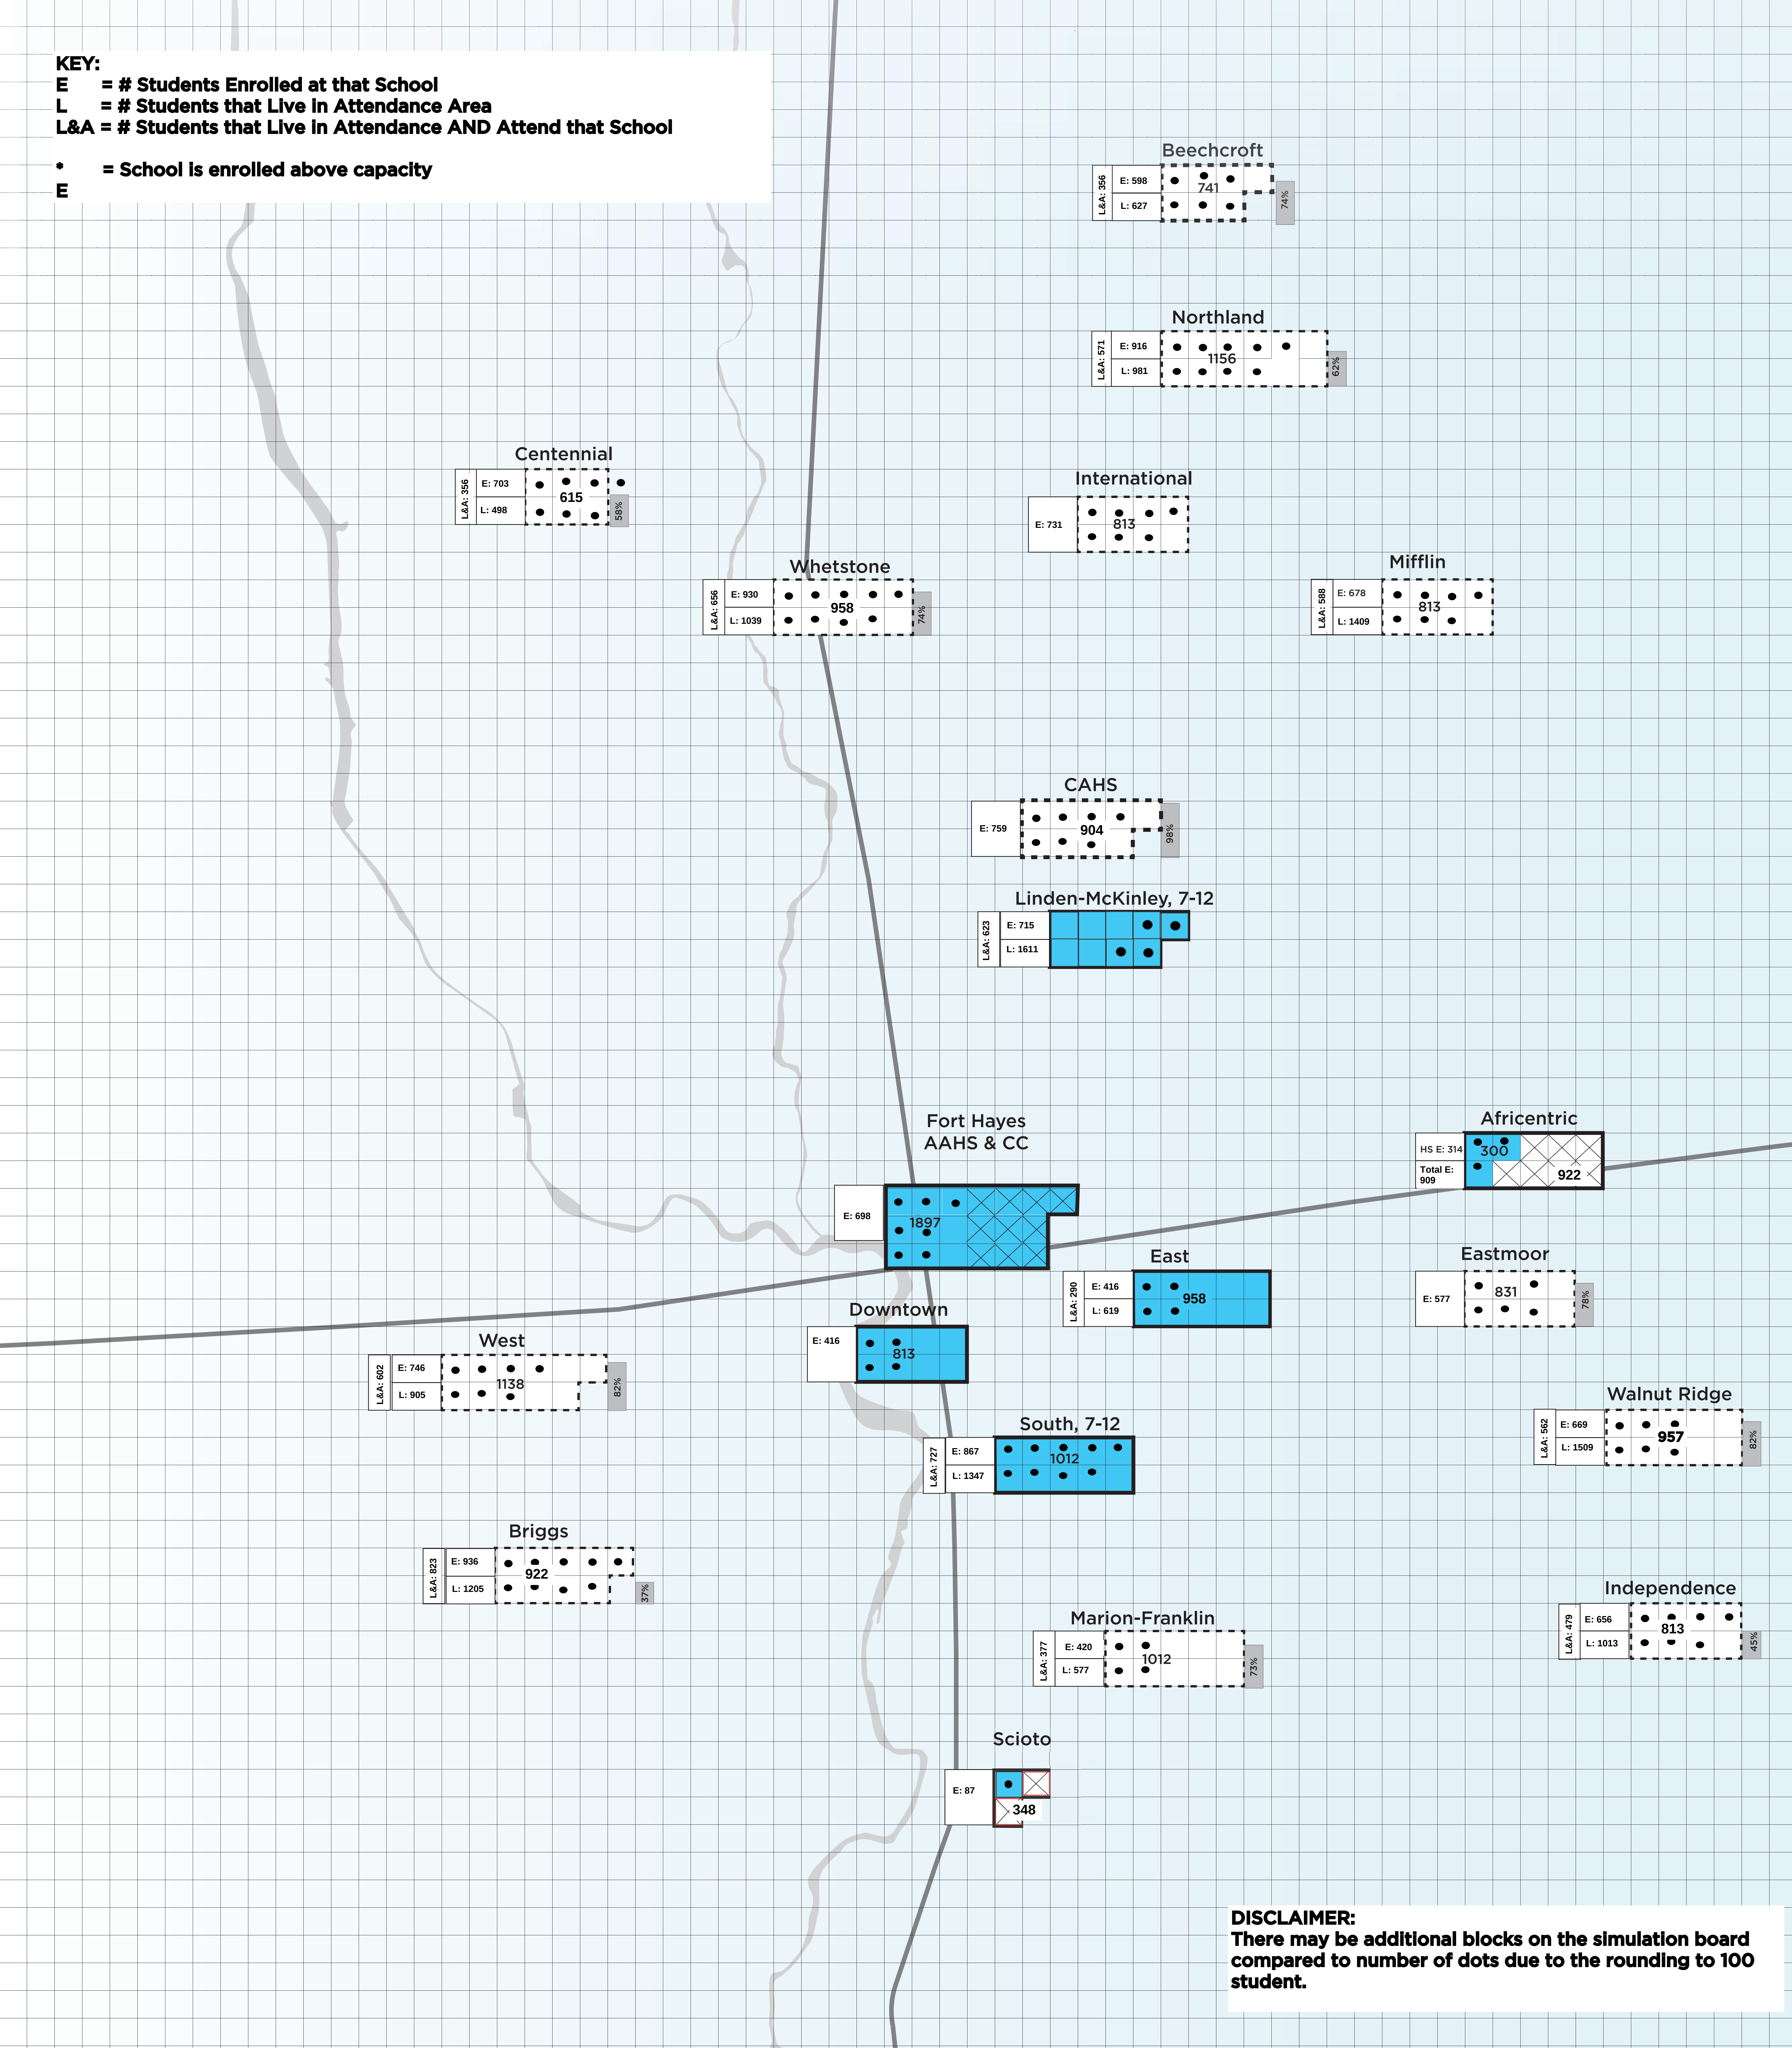

Our students will be imaginative and explore original ideas and innovative solutions by transcending traditional thoughts, patterns, and relationships.

GLOBAL EMPATHY

Our students will value and engage diverse cultures and unique perspectives through mutual respect and open dialogue while taking action to make the world more equitable and inclusive.
