

# PREPARING FOR AIR ONLINE PRACTICE

Below are other states' sites with released online test items aligned to standards similar to Ohio's Learning Standards for English language arts. All these states use the vendor AIR. Teachers can use these tests for additional practice with the standards and for students to become familiar with the online test environment by showcasing the different item types, features, and functionality available to students during online testing. Since educators outside of Ohio approved these released test items, the items may not reflect the level of depth, conceptual understanding, or rigor of Ohio's State Tests.
