

Blended Learning

Blended Learning Videos from Catlin Tucker

Catlin Tucker, teacher and author of *Blended Learning in Action: A Practical Guide Toward Sustainable Change*, shares how you can utilize blended instruction and technology in your classroom in a series of videos, no matter how high-tech or low-tech it is. Although the six-part video series features a online product from McGraw Hill called *StudySync*®, Catlin gives you an all-access pass into her classroom and shares tips on successfully implementing blended learning, whether you are using *StudySync*® or other online tools. She will help you if you are just getting started or are ready to take your current blended model to the next level.
