Question Ideas

Use three examples of textual evidence to show why the author wrote this piece. Then, state which of the three is the strongest.

Cite the strongest piece of textual evidence to support the main point made in the essay?

Analyze the article; what can you conclude? How does the textual evidence support your conclusion?

When you analyze the text, what inference can you make? Use the strongest textual citation to prove the inference.

Use three strong pieces of text to prove _____.

Which of the following citations most strongly supports _____.

Analyze the passage; what is implied? Cite the three strongest pieces of textual evidence to support the implication.

After reading _____ (informational text), write an essay that explains _____ (content). What conclusions or implications can you draw? Cite at least three sources. In your discussion, address the credibility and origin of your sources in view of your topic.

Chalk Talk (also called Graffiti Wall) Provide a large surface (SmartBoard or chart paper) and markers. Write the title of an informational text or editorial in the center. Students write (one at a time) a piece of specific evidence that supports what the title of the text infers. Students remain silent during the procedure. After everyone has contributed, the whole class discusses how the inferences support the central idea. Individually or as a class create an objective summary. Additional information about using Chalk Talk for adolescent learners can be found on pages 78-83 in the book *Making Thinking Visible: How to Promote Engagement, Understanding, and Independence for all Learners* by Ritchart, Church, and Morrison.

Discussion Circles Using a text addressing a controversial topic, students individually share a key idea. Each contributor responds to the shared idea with the last one summarizing the group's thoughts. The next student shares another idea and the process repeats. A detailed procedure and suggested variations of *Save the Last Word for Me* are available [here](#).

Kelly Gallagher Kelly Gallagher's [website](#) offers his *Articles of the Week* and other teaching resources to cover many of the informational text standards. His *Articles of the Week* expect students to demonstrate close reading of the text and then respond to some open-ended questions at the end. They allow the student's thinking to go beyond the article. Also, there are archives of hundreds of articles that he has used throughout the years so students can find an article that interests them.

Standardized Test Sample Question Stems

Highlight two sentences from paragraph 1 of Passage 2 that suggest it would be easy for consumers to start using CFLs.

A CFLs are a type of fluorescent lamp. B Many models of CFLs are available that are designed to replace traditional incandescent bulbs. C The compact size of these CFLs allows them to fit into many existing incandescent light fixtures, including table and floor lamps commonly found in households. D CFLs are very energy efficient, using approximately one quarter of the energy compared to traditional incandescent bulbs. E CFLs also have a very long lifespan, typically 6000–15,000 hours compared to the 750–1,000 hours for a normal incandescent bulb.

RI.7.1 (Prior Grade Standard)

Common Lit CommonLit is a free online (and printable) collection of fiction and nonfiction for 5th-12th grade classrooms. For ease of implementation into existing curricula or creating new units of study, collections may be filtered and searched by Lexile, grade, theme, genre, literary device, or standard. Typically, teachers assign a CommonLit text to students, and then students are asked to read the text, and then answer a series of text-dependent questions, many of which include AIR-type questions, such as multi-select Part A/Part B questions. The software automatically scores the student's answers for efficient progress monitoring and intervention. Discussion questions are included, but at this time, do not count against the student's overall score. It is suggested that the discussion questions be printed out for students to answer in writing or used to spark debate. (All CCS teachers and students have roster-aligned access through CLEVER.)

Question Ideas

What is the main argument made in the essay?

What claims support the argument in the article?

What data, evidence, or reasoning is presented to support claim #1? To support claim #2? To support claim #3? Which of the claims has the most relevant and sufficient evidence?

Delineate one of the claims made in the argument: List the claim made, the reasons given, and the evidence provided in support of the claim. Decide if the reasoning is sound. Decide if the evidence is sufficient and relevant.

Are the data, evidence, and reasoning given to support claim # 1 better or worse than those given to support claim #2? Support your answer with text.

After watching the commercial, identify the claim, reason, data, and warrant. Also identify the counterclaim if one was given. Decide if any irrelevant evidence was introduced.

After reading the first draft of your argument, decide which claims were sufficiently supported and which ones were not. Mark any irrelevant evidence.

Intellectual Skeptics Working in small groups, students analyze different versions of the same text or different versions of texts on the same topic. Begin using short texts or paragraphs. Students determine what the text says, what it means, what has been omitted, what they would like to ask the author, what evidence in the text supports the author's statements, what is irrelevant, and what evidence they can find to refute the author's statements. A format for this strategy is available in *This is Disciplinary Literacy* by R. C. Lent, Corwin Literacy, 2016.

Standardized Test Sample Question Stem

The podcast guest in Passage 1 makes several claims about CFLs. Which claim is offered without sufficient supporting evidence?

- A. It allows listeners to connect with other people as they share real-world experiences with CFLs.
- B. It allows listeners to rely on tone of voice in order to better understand each speaker's point of view about CFLs.
- C. It allows listeners to interpret the conversational nature of the podcast in a way that makes CFLs seem less threatening.
- D. It allows listeners to easily distinguish between viewpoints about CFLs by associating each viewpoint with a different speaker.

RI.7.8 (Prior Grade Standard)

Trace and evaluate the argument and specific claims in a text, assessing whether the reasoning is sound and the evidence is relevant and sufficient to support the claims.

RI.9-10.8 (Future Grade Standard)

Delineate and evaluate the argument and specific claims in a text, assessing whether the reasoning is valid and the evidence is relevant and sufficient; identify false statements and fallacious reasoning.

Appendix A Text Complexity: Being able to read complex text independently and proficiently is essential for high achievement in college and the workplace and important in numerous life tasks. Moreover, current trends suggest that if students cannot read challenging texts with understanding—if they have not developed the skill, concentration, and stamina to read such texts—they will read less in general. In particular, if students cannot read complex expository text to gain information, they will likely turn to text-free or text-light sources, such as video, podcasts, and tweets. These sources, while not without value, cannot capture the nuance, subtlety, depth, or breadth of ideas developed through complex text.

Highlighting Help Provide each student with access to 3-4 different colored highlighters. Using a non-fiction text with the whole class, have students highlight the different claims made in the paragraph(s). Students should match each claim with the support/evidence provided later in the text. (Essentially, students are matching claims to evidence using highlighter colors). Evidence that does not operate to support any claims should be identified by a different highlighter color. Students can copy over the identified claim/evidence pairings onto a separate document in order to accurately assess whether or not each piece of evidence truly supports the claim. Students can rank evidence in order of most effective to least effective in terms of support. Struggling readers may do this with a partner or may need assistance in finding the claims to get them started.

[Appendix A Text Complexity](#) (pages 2-16 address all aspects of text complexity)

Why Text Complexity Matters Surprisingly, what chiefly distinguished the performance of those students who had earned the benchmark score [on the ACT] or better from those who had not was **not** their relative ability in making inferences while reading or answering questions related to particular cognitive processes, such as determining main ideas or determining the meaning of words and phrases in context. Instead, **the clearest differentiator was students' ability to answer questions associated with complex texts.**
