Greetings,

Welcome to the 2025–2026 school year at Columbus City Preparatory School for Boys! This year marks an incredible milestone as we enter our 16th anniversary of empowering and educating young men through academic excellence, community, and leadership. As I begin my third year as principal, I can say with absolute confidence: this is shaping up to be the most exciting year we’ve ever had at Boys Prep.

This year's theme, “Stronger Together – One Brotherhood, One Vision,” is more than a motto, it is a call to action. We are building something powerful through collaboration, and this year will be a prime example of what is possible when we unite around a shared vision for our scholars.

We’re proud to launch this school year with expanded partnerships that will support and elevate our boys, including:

- **Male mentoring groups** offering meaningful guidance and modeling positive leadership
- **My Brother’s Keeper**, through the Mayor’s Office, helping to close opportunity gaps for young men of color
- **The Driven Foundation**, delivering mentorship, life-skills development, and leadership tools daily at our after-school program
- A growing collaboration with the **NPHC of Columbus** and the 5 fraternities whose rich traditions of scholarship, service, and excellence will inspire our scholars in powerful ways

These partners embody our belief that our boys thrive when surrounded by a village of committed men and leaders.

We remain rooted in our vision: ***We Empower Tomorrow’s Leaders. Our all-boys middle school is dedicated to cultivating confident young men who lead with integrity, inspire through action, and serve their community with compassion.***

And we are driven by our mission: ***We foster community engagement and empower student voices, while embracing risk and failure as essential components of relevant learning experiences.***

This year, we renew our deep commitment to academic excellence.

- **In literacy**, we are working to ensure that every scholar not only meets grade-level reading expectations but also develops the skills to comprehend, analyze, and lead through language.
- **In math**, we are preparing scholars for success in a world increasingly shaped by STEAM-related fields, helping them build the reasoning and problem-solving skills necessary for the future.
