

March 20, 2020

Dear Parent,

I am pleased to tell you that we will be using a website called IXL in our classroom during this extended break. IXL is a comprehensive learning program offering unlimited math practice across thousands of skills—all of which are aligned to Ohio Standards. One of the best things about IXL is that your child can access it from home, so you have a chance to see your child's progress!

To get your child started on your home computer, please follow these easy steps:

1. Go to <https://www.ixl.com>
2. Enter your child's username and password and click "Sign in."
(Note: The username and password are not listed below. An email was sent to your child's CCS e-mail with their login information. If unable to access it, please e-mail me at mhoward6075@columbus.k12.oh.us and I will send their log-in information to you.)

Username _____

Password _____

3. Click on any skill to start learning!

IXL is designed to help your child learn at his or her own pace. The program is adaptive and will adjust based on your child's demonstrated understanding of the material. All of your child's results will be saved, so you can monitor his or her progress anytime by clicking on Analytics. For on-the-go practice, you can download IXL's free tablet apps for iPad, Android, or Kindle and sign in with your child's username and password.

I hope you'll encourage your son or daughter to use IXL regularly. Here's to an extended break of working together to make learning fun for your child!

Sincerely,

Mrs. Melinda Howard
7th Grade Math Teacher
