

Hi guys! What a crazy time huh?! But don't worry, we will get through this together! While this may seem overwhelming right now, look on the brightside: you get to stay in your PJs all day, and this makes great practice for College (everything is online in college!!)

Now, here's how we're gonna make Science happen! Below you will find a list of various activities that will need to be completed. **All science assignments will be located in Google Classroom.** The assignments should be done in the order listed, and all assignments should be completed on Google Classroom. **Please do not make a copy and email it to me.** Everything you need to complete these assignments will be located in Google Classroom.

HOW TO REACH ME WITH QUESTIONS OR CONCERNS:

1. **Join Remind!** --This is the best method of contact. This app allows us to communicate via text without exchanging phone numbers. Quick and easy! You do NOT need to download the app, simply follow the directions below to use Remind:
 - a. **Text @kkitchensm to the number 81010**
 - b. You will be asked to reply with your name and "S" for student
 - c. After it says you have joined, send me a practice message, and I will reply so you know it worked. If you do not receive a message back, either try joining again or email me and we will figure it out!

2. **Email me!**
 - a. kkitchensmith@columbus.k12.oh.us
 - b. I check my emails multiple times a day so you should always hear back from me that day or within 24 hours. **If it is an urgent question, contact me via the Remind App.**

3. **Comment or send a message through Google Classroom.**
 - a. Within an assignment or announcement send me a comment or question.
